EDUCATION

2024
B.Sc. (Electronics)
Sri Venkateswara College

2020
XII
ITL Public School
New Delhi

CORE COMPETENCIES

- User Experience Enhancement
- Software Development Lifecycle
- MERN Stack Development
- API Integration
- Version Control
- Cloud Deployment
- Website Optimization
- Front-end Frameworks Development

TECHNICAL SKILLS

Front-end Frameworks / Libraries: React.js, Next.js, jQuery
Back-end: Express.js,Django,Flask

Database: SQL (PostgreSQL/MySQL),MongoDB

Languages: JavaScript, TypeScript, Python
Tools & Platforms: AWS,GCP,Git/ GitHub,Jenkins
Design/ Styling: CSS, Bootstrap, Tailwind

OBJECTIVE

Result-oriented Professional with over 1.1 years of experience in Full Stack Development with hands-on experience in React.js, Next.js, Express.js, SQL, JavaScript, TypeScript, and Python (Django/Flask), contributing to dynamic and responsive web applications.

PROFILE SUMMARY

- Assisted in optimizing website performance metrics such as LCP and FCP that greatly improved load times and user experience alongside leveraging SQL databases for efficient data management and analysis.
- Gained experience in debugging, feature integration, and troubleshooting in client-assigned projects, including eIPO platforms, KYC/IPV systems, and facial recognition software.
- Worked collaboratively in team environments; contributed to project delivery, small feature enhancements, and client-specific functionality improvements.
- Proficient in version control (Git/GitHub) and deployment on Vercel, supporting efficient code management and scalable application hosting.
- Actively engaged in continuous learning, exploring full stack development and enhancing technical skills to deliver reliable and user-friendly web applications.

WORK EXPERIENCE

Oct'24 – May'25

Software Developer
Meon Technologies Pvt. Ltd./ Noida

Responsibilities (e-KYC) :

- Resolving bugs and functional issues in client-assigned projects including eIPO platforms, digital onboarding/KYC flows, and facial recognition/IPV systems.
- Supporting project delivery by completing assigned tasks effectively and contributing to overall application quality.
- Assisting in the integration of client-requested features into existing web applications to ensure seamless functionality and compatibility with current systems.

Highlights:

- Contributed to website performance optimization by assisting in the improvement of LCP and FCP metrics by 35% using Google PageSpeed Insights.
- Supported user experience enhancements by refining page layouts and client-specific functionalities as part of team projects.
- Patched XX issues in facial recognition software, enhancing process efficiency and user experience.

May'25 – Till Date

Responsibilities (HRMS) :

- Developed a full-stack HRMS web application for managing employee data, payroll, and attendance.
- Designed a secure **JWT-based authentication** system for admin and employee roles.
- Built a **dashboard with real-time analytics** including salary trends and distribution histograms.
- Ensured responsive layouts and smooth UI interactions across devices using CSS & Material-UI Grid.
- Implemented export and print functionality for pay-slips in PDF format.

PERSONAL DETAILS

Address: Anoop Nagar, Delhi NCR, 110059
Date of Birth: 27th April 2002
