I am a passionate and motivated MERN developer with a strong foundation in technologies that include HTML, CSS, and JavaScript. I have hands-on experience with responsive design and worked on modern frameworks like React.js, Express.js, JQuery and Next.js. I am excited to apply my skills in a dynamic environment and contribute to innovative projects. I am looking forward to connecting with professionals in the field and exploring opportunities where I can contribute and grow!

WORK EXPERIENCE

Frontend Developer

Meon Technologies Pvt Ltd.

10/2024 - Present

Noida, Uttar Pradesh

Achievements/Tasks

- Improved website performance by optimizing Largest Contentful Paint (LCP) and First Contentful Paint (FCP) metrics using Google PageSpeed Insights.
- Ensured enhanced user experience and faster load times, contributing to overall website efficiency.
- Improved user experience by refining page layouts and functionalities tailored to client requirements.

Software Developer Intern

Rewasto Recycling (<https://rewasto.in/>)

07/2024 - 08/2024

Noida, Uttar Pradesh

Achievements/Tasks

- Constructed a dynamic, responsive and interactive frontend using Reactjs and Tailwind.
- Experimented with various color themes to bring out a contrasting combination and visual appeal.
- Applied animations and transitions for better user experience.
